Waste Reduction Ltd.

The **Millennium 4000 - Bear Resistant In-Ground Trash Container** is a trash can like no other! This 300 gallon capacity can has been certified as “Bear-Resistant” by the North American Bear Resistant Products Testing Program, as noted on the reverse page, by withstanding over 60 minutes of black bear contact. Above ground, these look like regular trash cans; however, they are planted into the ground which solves a multitude of trash-related issues while allowing for greater trash capacity resulting in less frequent emptying. (A Millennium 4000 Upgrade Kit for Millennium 3000 units available soon)

Contact us today for more information!!

- Less frequent pick-up allowing redeployment of staff time
- Self compacts for larger holding capacity reducing litter and overflow of trash cans
- Cooled by the ground naturally
- Anchor flange provides stability in frost and high ground water conditions
- No smell of trash to attract animals, birds and insects
- Below ground, built-in odour and fire suppressing design
- Dual-keyed locking system—anti-tamper proof design
- Less residential waste going in
- Not disturbed by animals, wind or vandals (no way to get trash loose)
- Emptied with equipment reducing possible staff injuries from lifting, sharp objects and contact with trash
- Helps reduce surface litter
- Once trash is in the can, it STAYS IN THE CAN

# North American Bear-Resistant Products Testing Program

## Official Test Results

---

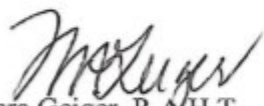

**Test File #** 15-02

**Testing Date:** June 17-18th, 2015

**Product Supplier:** Sybertech Waste Reduction Ltd.

We are happy to inform you that on June 18<sup>th</sup>, 2015, your Sybertech Millennium 4000 container passed the captive bear test for bear resistant products at the BC Wildlife Park in Kamloops, British Columbia. During the duration of this test your Sybertech Millennium 4000 product withstood the forces exerted by 60 minutes of black bear contact time and was not breached and remained intact and in good condition. The Sybertech Millennium 4000 container therefore is officially deemed bear resistant.

Thank you for participating,

Tara Geiger, R.A.H.T.  
Animal Care Supervisor  
BC Wildlife Park

Glenn Grant,  
General Manager  
BC Wildlife Park

Frank Ritcey,  
Provincial Wild Safe BC Coordinator  
BC Conservation Foundation
